### **DETAILED ACTION**

Claims 1-5 are pending and have been examined.

#### ***Priority***

1. Acknowledgment is made of applicant's claim for priority under 35 U.S.C. 119(a)-(d) based upon an application filed in Japan on 12 January 2000. A claim for priority under 35 U.S.C. 119(a)-(d) cannot be based on said application, since the United States application was filed more than twelve months thereafter.

#### ***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on 04 December 2003 was considered by the examiner.

#### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Regarding claims 1 and 5, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d). Regarding claim 5, the phrase "or the like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

The broadest reasonable interpretation is applied. Thus, claim 1 includes the limitation, "a host computer for changing parameters in an application program". Claim 5, includes the limitation, "color and motions of parts" and no mention of "or the like".

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by **Suzuki et al.** (USPN 5,592,609).

**Claim 1**

**Suzuki** disclosed a parameter tuner system comprising:

- ♦ a host computer for changing parameters ~~such as image and sound included~~ in an application program (*column 2, lines 60-65*); and
- ♦ a target machine for reflecting said parameters to the application program and for making execution thereof (*column 2, lines 28-33 and 60-65; column 8, lines 14-29*).

**Claim 2**

**Suzuki** disclosed a parameter tuner system according to claim 1, wherein:

- ♦ said host is provided with a shared memory for storing said changed parameter and being accessible from both of said host computer and said target machine (*column 10, lines 19-38*).

Claim 3

**Suzuki** disclosed a parameter tuner system according to claim 1, wherein:

- ♦ said target machine is provided with an output means for outputting an image or sound resulted from the execution of said application program (*column 8, lines 30-44; figure 2B*).

Claim 4

**Suzuki** disclosed a parameter tuner system according to claim 1, wherein:

- ♦ said host computer is provided with a parameter change means for displaying an alteration key on a display screen and changing said parameter in accordance with the operation for said alteration key (*figure 6-10, at least*).

Claim 5

**Suzuki** disclosed a parameter tuner system according to claim 1, wherein

- ♦ said application program is a game program (*column 2, lines 25-33*), and
- ♦ said parameters are size, color of and motions of parts ~~such as eyes, noses of a character~~, color of the background, and volume and frequency of sound,

~~or the like~~, which constitute the content of said game program (*column 2, lines 34-59*).

### ***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. **Walker et al.** (USPN 6,110,041) is read upon by the broadest reasonable interpretation of the claim language (column 5, lines 18-22; figures 5 and 6).
